

Cashel Community School Adult Education Programme

Course Description: Creative Photography - Beginners

This evening class is suitable for individuals who wish to acquire skills and knowledge in digital and/or film SLR cameras.

The class will cover the following:

- Camera Settings, how to take photos in the different settings and difference between them.
- Composition of a good photo and rule of thirds plus focus points.
- What Aperture, Shutter speed and ISO mean.
- The difference in lighting for effective portraits and how to make the most of domestic lighting.
- How studio lights work and posing.
- How to save your images on the computer and how to do basic edits and how to make a slide show or design a story book.
- Photography printing options, digital files and social media.
