## Art – Creative Printmaking

### Art - Creative Printmaking (8-week evening course)

This 8-week course offers a hands-on introduction to printmaking, focusing on three accessible and rewarding techniques. Participants will begin with colourful gelli plate printing, experimenting with textures, stencils, and layers to create vibrant one-off prints. The course will then explore collagraph, a tactile process of building and printing textured plates, before moving on to experimenting with fabric printing using multiple techniques. The course is suitable for beginners and encourages creative exploration while also providing time to produce finished artworks.

### Lisa Manton Bio

Lisa Manton is a local artist based in Cashel and the artist behind Colour & Co Art Studio. She has extensive experience facilitating creative workshops for all ages and brings a broad knowledge of printmaking, drawing, illustration, design, and mindful making. Passionate about fostering creativity in the community, Lisa creates welcoming spaces where participants can explore new techniques and develop their artistic confidence.
