

Cashel Community School Testimonials from the Building Blitz'

Andrew Downey, Building Blitz November 2010 said:

"It was unreal seeing hundreds of Irish people, 6,000 miles from home, working so hard to get as much work done as possible to make a difference."

Laura O Dwyer, Building Blitz November 2010

"It was an amazing experience to see first-hand the poverty and unfairness that exists in our World".

Paul O Reilly, Building Blitz November 2010

"No photographs or dvd's properly convey the awful living conditions you see first-hand".

Katie Crosse, Building Blitz November 2010

"The local African kids around where we worked and on the school visit were amazing. They had so little, lived in terrible shacks, yet were so happy and never complain".

Aoife Burke, Building Blitz November 2010

"I could not stop talking about my great experience when I came home. I was mad to show people the photographs and tell everybody about the great trip and the difference each of us can make" !

Caitriona Ryan, Marie White & Brendan Ryan - Teachers Cashel Community School, said:

"For us as teachers it was brilliant to see students from our school, leave their comfortable homes and work so hard to help people who live in a completely different environment. On returning each year, the students have given presentations to all of the other year groups about their experiences. This has made all our students realise how lucky they are here in Ireland, as well as raising awareness of poverty and charity work."
